Lioncrest Global forms strategic partnership with Ops Capital

Lioncrest Global and Ops Capital have today signed a strategic cooperation agreement which will allow the two firms to work jointly on bringing attractive and truly unique venture capital and private equity deals to their respective clients.

Ops Capital is a boutique corporate consultancy firm that engages in domestic and international transactions for small and medium sized enterprises. It is based out of Singapore with a focus on South East Asia.

Tsung Yan Soo, Founder and Managing Partner of Ops Capital said: “Lioncrest Global has a strong access into Greater China’s UHNW space, as well as to Single Family Offices in general – client groups which are looking for opportunities to do angel, Series A and Series B investing. We are very pleased to collaborate with Lioncrest Global to bring hard-to-access deals to this set of clients.”

Johan Riddergard, Co-Founder and Managing Partner of Lioncrest Global said: “Ops Capital complements Lioncrest Global and its existing partnership with Pier99 Capital perfectly, since a majority of Ops Capital’s deals and investors come from South East Asia. We look forward to work closely with the partner group of Ops Capital to offer unique private investment opportunities to our respective clients.”
